SUMMARY

Frontend Developer specializing in Next.js, React.js, and TypeScript with hands-on experience building scalable, high-performance web applications. Strong expertise in state management (Redux, Context API), RESTful API integration, reusable component architecture, and frontend unit testing. Experienced in optimizing performance, ensuring cross-browser compatibility, and implementing responsive, accessible UI aligned with modern UI/UX best practices.

WORK EXPERIENCE

Expert Technics, Mohali(Punjab), India

Feb 2025 - Sep 2025

Manual Tester

- Executed 100+ manual test cases for web and Java-based applications.
- Collaborated with developers to validate bug fixes and ensure stable releases.
- Identified UI/UX inconsistencies and contributed to improved application reliability.
- Gained strong debugging and analytical skills applicable to frontend development.

EDUCATION

Amity University, Noida

August 2020 - June 2023

BSc IT - 78.91%

CBSE

April 2019 - May 2020

12 th - 73.60%

SKILLS

Core: Java, Spring Boot, React.js, MySQL

Languages: Java, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap

Backend: Spring Boot, REST APIs

Databases: MySQL, SQL, JDBC

Testing: JUnit

Tools & Platforms: Git, GitHub, AWS (Basics)

Soft Skills: Communication, Problem Solving, Teamwork, Time Management, Adaptability

PROJECTS

CodeSaarthi – Full Stack Java Learning Platform [🔗](#)

02/03/2026 - 20/04/2026

- Built a responsive learning platform using React.js and Bootstrap.
- Added topic-wise learning flow, cheat sheets, and navigation system.
- Implemented dark/light mode using Context API.
- Created reusable components and responsive UI for better user experience.
- Used Git and GitHub for version control.

Utility-Verse - Responsive Tools Web App [🔗](#)

25/01/2026 - 28/02/2026

- Built and deployed a scalable utility web application using Next.js and React.
- Applied complex state management using Redux and Context API.
- Ensured responsive and high-performance UI with lazy loading and reusable components.
- Integrated interactive features to enhance user experience.
- Wrote unit tests to ensure robust frontend quality.
- Used Git-based version control workflow for structured development

- Developed a scalable web application using Next.js and React.
- Implemented state management using Context API and Redux.
- Designed a responsive UI ensuring cross-browser compatibility.
- Optimized performance using reusable components and lazy loading techniques.
- Wrote unit tests for UI components to maintain code quality.

CERTIFICATE

Frontend Developer (React) Certificate

- I achieved this certification by completing tasks where I built reusable React components and applied JavaScript inheritance concepts.
- The test also covered CSS animations and edge cases, strengthening my frontend fundamentals.

HackerRank skill certification in Java

HackerRank skill certification in SQL

HackerRank skill certification in Problem Solving

Microsoft Certified: Azure Data Fundamentals from Microsoft

Microsoft Certified: Azure AI Fundamentals from Microsoft

Software Engineering Virtual Experience – JPMorgan Chase & Co< (Forage), 2022

- Real-time data processing, backend development, data visualization

LANGUAGE

English Intermediate

Hindi Superior

Russian Novice

AWARD

Best in Leadership Qualities AIIT, AU Noida

Bronze Medal in Chess Competition AIIT, AU Noida
